UNLEASH YOUR POTENTIAL

Welcome to UC.

**We're the home of innovation,
ambition and experience-based
learning. We're also one of the
fastest rising universities in
the world*.**

*QS 2021

At UC we do things differently. We don't just teach. We share, learn, engage, encourage, and most importantly we connect with each other. Because that's who we are, and that's what drives our success — open and authentic collaboration at all levels.

We are more than a university. We are the embodiment of Canberra and everything that makes this city distinctive — young, energetic and progressive with a far-reaching, global influence.

So, if you're looking for a university that will inspire, challenge and help you reach your full potential, then relax, you've come to the right place.

The University of Canberra acknowledges the Ngunnawal people, traditional custodians of the lands where Bruce Campus is situated. We wish to acknowledge and respect their continuing culture and the contribution they make to the life of Canberra and the region. We also acknowledge all other First Nations Peoples on whose lands we gather.

WHAT SETS UC APART

It's all in the details

WORLD'S FASTEST RISING UNIVERSITY

The University of Canberra is quickly building a reputation as an ambitious educator and innovative game changer. UC is ranked in the top 1 per cent of universities in the world, in the top 10 in Australia and officially recognised as one of the fastest rising academic institutions in the world.

WE'RE HERE FOR YOU

UC consistently earns 5-star ratings for teaching quality and student satisfaction across our broad range of degrees. What's more, our graduates enjoy an 89 per cent graduate employment rate.

GET YOUR HANDS DIRTY

Get a head start with hands-on learning. Our Work Integrated Learning (WIL) gets you job ready with practical work-based projects, internships and industry networking in every course.

MAKE THAT MONEY

Want to hit the ground running? Our graduates in the ACT earn the highest average salaries in Australia, making Canberra an outstanding choice for Australian and international students looking to get ahead in their careers.

FLEX IT

Maximise your uni experience with flexible study options, including online, on-campus, flexible, intensive and self-paced learning. You choose the place, time and intensity of study to fit your life.

A CITY MADE FOR STUDENTS

Ranked as one of the top student cities in the world, Canberra offers the perfect student lifestyle for all tastes. Whether you're passionate about food, professional networking, a nature lover or an avid festival goer, Canberra is sure to keep you entertained.

SEE THE WORLD

Once it's safe again, you can spread your wings and study overseas as part of your degree. UC has a whole range of different opportunities to suit your interests and varied options for the length of time you wish to spend away.

EXPERTS IN RESEARCH

Learn from highly qualified and industry-connected academics who are leading the way in areas such as Cancer Research and Architecture. UC is also ranked well above the world standard in Ecological Application, Environmental Science, Management, Genetics, Human Movement, Nursing and Public Health.

SAFE CAMPUS

PRACTICAL LEARNING

Education for the real world

At UC, we recognise that careers aren't made in lecture theatres and textbooks. Whilst theory plays an important role in education, the skills you need to excel in the workforce are learnt by getting your hands dirty in real-world learning.

We live and breathe this ideology and actively encourage work integrated learning and industry projects in every course we teach — after all, this is what most employers are looking for in today's graduates.

We'll also get your foot in the door with industry and employers, giving you the chance to establish a professional network and build an impressive list of industry contacts long before you graduate.

WORK INTEGRATED LEARNING

As a student at UC, you'll become familiar with the concept of Work Integrated Learning (WIL). WIL offers students the chance to gain practical experience through internships, clinical placements, industry projects and more.

The deep integration of WIL in all of our courses means our students graduate highly employable and with the right mix of skills, knowledge and experience.

UC has developed strong partnerships with real world employers who are able to facilitate internships, placements and professional mentoring opportunities both here in Australia, and overseas.

Organisations we have close connections with include:

- PricewaterhouseCoopers
- Ernst & Young
- Deloitte
- Intelledox
- Xero
- Instaclustr
- Geocon Constructions
- ActewAGL
- Centre of Defence and Strategic Studies
- Australian Border Force
- Australian Institute of International Affairs
- Canberra Times
- ACT Brumbies
- Fox Sports
- Canberra Raiders
- AFL Canberra
- Basketball ACT
- Netball Australia

TIMELESS SKILLS

At UC we want you to graduate with the core skills to be able to navigate a successful future no matter what career path you choose to follow. This is why we also invest time in helping you develop vital interpersonal skills such as problem solving, communication, creative thinking, networking, conflict resolution and much more.

BREADTH MAJORS

Make the most of your time at UC with a breadth major. A breadth major allows you to study a wide range of subjects giving you the flexibility to explore interests that may not traditionally be available within your main field of study.

For a list of majors, please visit

www.canberra.edu.au/majors-and-minors

CAREER SUPPORT

Our dedicated team at Careers UC provide advice and opportunities for student employment both on and off campus. They also assist with internships, placements and student projects. Keep an eye out for our numerous workshops, events, online resources and tailored appointment opportunities.

“
 I got my first job through my internship unit and I never looked back. I was working 3 days a week in my final semester which was a dream.
 ”

KIRRILY TURNER
*Bachelor of Communications
 in Public Relations*

INDUSTRY PROFILE

From intern to graduate

For Monika Tokich, UC was always the obvious choice. She knew that if she wanted practical experience, UC was where she needed to be to get her foot in the door and launch her dream career in business technology.

Today, as a recent graduate of the Bachelor of Business Informatics, Monika has done just that. After participating in UC's industry-based learning (IBL) program, she secured a graduate position in one of Australia's largest professional services firms, PricewaterhouseCoopers (PwC).

"Towards my final year of uni, I started hearing about the PwC IBL program. It sounded like such an amazing opportunity to get to work in the industry for my final semester."

"Coming into it, I didn't really know what to expect but from the get-go I was given the same responsibilities as any graduate. From visiting client sites and interacting with stakeholders to working on real deliverables, every day was different and an opportunity to get ahead in the industry."

Following on from the IBL program, Monika made the seamless transition from intern to graduate.

"In my exit interview for the IBL program, PwC put forward that they wanted to offer me a grad position. So, I finished the IBL program on Friday and on Monday I was in a graduate position in the technology consulting team."

For Monika, UC's emphasis on practical learning got her exactly where she wanted to be.

"I really enjoyed my time interning for PwC and can't imagine being anywhere else."

YOUR UNI EXPERIENCE

Live life large

Safe, friendly and welcoming —

At UC we are committed to having a safe and friendly campus which means you can take a deep breath and dive headfirst into your uni experience.

With over 80 academic, social, cultural and sporting clubs on site, as well as events, prayer rooms, women's rooms, a children's creche, cafes, shops, 24/7 security, and guaranteed on-campus accommodation at very affordable prices; UC offers a truly safe, friendly and welcoming campus for all.

O-WEEK

Start the year with a bang at UC's Orientation Week (31 January–4 February 2022). Get ready for classes, find your way around campus, meet a ton of new people and have heaps of fun.

O-Week includes free cultural and social events, such as our Amazing Race Challenge, bus tour, student meet and greets, themed trivia nights, cultural club events, toga party and much more.

You'll feel confident about your first semester with enrolment help, study skills presentations, course advice sessions, and library and campus tours.

UCX

Put down your books — it's time to party. Throughout the year, UCX throws events that are perfect for getting involved, meeting people and having fun. Keep your eyes peeled for live music, O-Week celebrations, competitions and giveaways, university sports games, Stress Less Week and free food.

CLUBS AND SOCIETIES

Connect with people who love what you love. Join one of our student clubs and societies to meet new people, share ideas and expand both your circle of friends and professional network. Whether you're a bookworm, social butterfly, sporting hero or culture queen, there's a club to suit you. And, if there isn't, you can always create your own!

SPORT AT UC

If you love sport, you're in the right place. Whether you're cheering for one of our affiliated professional sporting teams or getting sweaty playing for one of our many sporting clubs, there's something for everyone at UC.

Our Sporting Commons provides state-of-the-art facilities and classes, and is home to the Brumbies Super Rugby team and UC Capitals WNBL team. UC is also home to the Research Institute for Sport and Exercise (UCRISE), and we have a very close relationship with the Australian Institute of Sport.

CBR PRIDE

We love Canberra

FEELING HUNGRY?

TREAT YOUR TASTEBUDS

In Canberra, we take our coffee and our food seriously. Very seriously. Jam-packed with award-winning restaurants, fresh food markets and annual food festivals, you'll never run out of places to eat in Canberra or cool cafés to study at. If you're a foodie make sure you check out the annual street food festival **The Forage**, and head to the **Belconnen Fresh Food Markets** and **EPIC Farmers Market** for the best fruit and veg in town.

INTERNATIONAL

With around 25 per cent of the population born overseas, Canberra is a truly multicultural city and we're tasting the benefits. The **National Multicultural Festival** takes over the city centre in February with over 300 food stalls from every part of the globe, as well as live music and dancing. Relive your European summer while enjoying cheap and delicious food at the **Harmonie German Club** or **Polish White Eagle Club**.

NIGHTLIFE

BARS AND PUBS

No matter your tastes, you'll be impressed with Canberra's booming bar scene. Experience magical mixology at **Highball Express** and **Molly's**, Canberra's favourite speakeasy. If you're into craft beer, head to **Bentspoke** or **Capital Brewing Co.** to enjoy a pint in a working brewery.

NIGHTS OUT

If you live for live music and partying to some of the biggest names in the country, the **UC Refectory** is going to be your new home for unbeatable entertainment. If you're looking to go off campus, head to the famous **Mooseheads** for a night you won't forget.

CREDIT: VISITCANBERRA

OUT AND ABOUT

CULTURE

Canberra is home to our national cultural institutions where art lovers can indulge their passions at the **National Gallery of Australia**, while history buffs can glimpse to the past at the **National Museum of Australia**. Whether you're taking in a famous face at the **National Portrait Gallery** or learning about our diggers at the **National War Memorial**, living in Canberra will let you get up close and personal with Australia's cultural heritage.

EVENTS

Canberra offers something for all interests, including food and wine, festivals, sports and more, you will be spoiled for choice. There are the classic favourites like **Floriade**, **Skyfire**, **Enlighten** and the **Canberra Balloon Spectacular**, we are also home to the Raiders, UC Capitals and Brumbies and also host world-class music festivals including **Groovin' the Moo** and **Spilt Milk**.

CREDIT: VISITCANBERRA

CREDIT: VISITCANBERRA

EXPLORE

Canberra is called the Bush Capital for a reason — our stunning natural surrounds are an adventure-lover's paradise. Explore nearby **Namadgi National Park**, **Stromlo Forest Park**, **Corin Forest** and the **National Arboretum**. Snow-bunnies and surfers won't have to travel far either — Canberra is only a two-hour drive to the coast or fresh powder.

STUDENT PROFILE

Finding your passion

Meet Keisha, Communication and Media student who took the time to discover her passions before moving to Canberra to study.

“People put a barrier on Indigenous people, and I don’t want there to be one. I want to succeed, and be really successful, but I don’t want people to say, ‘oh you’re Indigenous and look how successful you are.’

I don’t want it to be like that. I don’t want there to be barriers anymore. I want it to be more like ‘you are a person and look how successful you are.’”

These powerful words were spoken by Communication and Media student, Keisha Preston, an Indigenous woman who came to Canberra to study.

Keisha followed a path originally paved by her Pop to follow her pursuit for university education. It’s a path her mother and aunt have also walked, and she has proudly followed suit in finding her own passions.

“I’m really lucky I come from a background of university people which I am really fortunate for because being an Indigenous person, I am constantly reminded that I am more likely to be incarcerated than I am to complete a university degree.”

And whilst Keisha strives to eliminate the preconception of barriers for Indigenous communities, she wants to not only do her mob proud but herself proud. After taking some time after school to get to know herself and discover what she really wanted to do, Keisha has found her calling.

“I took a really long ‘gap year’ trying to work out what I wanted to do. I was working in admin at a hospital in Newcastle and a lady that worked there said to me ‘Little Keisha, you need to go on an adventure. You need to move and go and experience all that life has.’ I thought about what she said and the very next day I told her I had decided to apply for jobs in Sydney.”

One thing led to another and Keisha ended up landing a managerial position within three weeks, but she knew that job wasn’t what she wanted to do and left almost a year later. Her career then took her to a sports clinic where she worked on their website and social media channels, and this is where her passion ignited. After researching universities Keisha found that at UC she could combine sports, marketing and media and that was what she wanted to do.

“Taking that time to find out about myself and what I’m interested in really helped. If I had gone to university straight out of school I would have studied what my mum studied, which wasn’t for me.”

Now Keisha is thriving at UC having taken on the roles of the Ngunnawal Representative, Secretary, Diversity Officer and Sports Officer in the SRC. She is also a member of the UComms Society which has taken her on industry trips and given her endless networking opportunities, and she also fills her time working for VisitCanberra and taking on various internship opportunities.

Needless to say, we can’t wait to see how Keisha’s career blossoms and where her remaining years at UC will take her.

MALAYSIA INTERNSHIP

18 FACULTY STUDY TOURS AND INTERNSHIPS

UC_Globallearning

#UCglobal

At UC, we set you up for a global career by integrating international study opportunities into nearly all of our courses.

When you study abroad you're enhancing your degree with a once in a lifetime experience. While completing credit towards your degree, you will gain international perspectives, a network of friends and colleagues, and develop your employability skills. We make studying overseas easy by helping you tap into our global network and take advantage of funding opportunities that will help finance your international adventure.

EXCHANGE PROGRAMS AND STUDY ABROAD

Study at one of our amazing exchange partner universities in Europe, Asia and the Americas. You remain enrolled as a full-time student and pay your tuition fees to UC while overseas. Or reach outside our network and find a full fee-paying semester opportunity anywhere in the world as a study abroad option.

FACULTY STUDY TOURS

Designed and led by UC faculty members specifically for UC degrees, these two to five-week programs create opportunities with your peer group. Run like an international field trip, these adventures are credited towards a unit allowing you to explore other cultures while studying.

SHORT COURSE PROGRAMS

For some students a short-term program finds the perfect balance between independence and managing work and family life. Available during summer and winter breaks, they provide a unique opportunity to study overseas without disrupting normal study periods.

INTERNATIONAL INTERNSHIPS

Amp up your practical experience while discovering what it is like to live and work overseas with an international internship. Internships can be organised through the university or independently through external providers.

PLAN AHEAD

Plan to undertake your exchange or study abroad experience in your second year. You can plan ahead with your faculty to make the units you study overseas fits easily into your degree.

FAST FORWARD PROGRAM

Riding in the fast lane

Meet Bella and Tyler, two students who joined our Fast Forward Program to gain access to exclusive benefits and help prepare them for the transition to university life.

BELLA

Bella Parsonage Phelan has a strong passion for Indigenous cultures and the local community. As a year 11 student at Dickson College in 2019, she applied for the Fast Forward Program to develop her knowledge beyond what she learns in the classroom and to gain a better understanding of her degree of choice, sociology.

“I really liked that this program focused equally on the development of the individual and the impact that each of us has on the community. As one of 25 students I get to meet and connect with other students before I even start studying.”

In her spare time, Bella volunteers at her school with non-English speaking students who have come to Australia as refugees. This has fuelled her passion for sociology.

In looking to the future, she hopes that after studying at UC she will be able to bridge any cultural gaps between communities. “I discovered I loved learning about people, cultures, and who, why and what we are — this ties in nicely with the refugee kids I work with at school. I would like to work in Indigenous policy and assisting Indigenous people in gaining access to the same education and health opportunities as everyone else.”

TYLER

Tyler Greenhalgh, an alumnus of St Edmund’s College, decided to apply for the Fast Forward Program to meet industry partners and gain work experience. “I know that what I study is a very big decision to make, and since I’m not 100% sure of what I want to do I thought this was the perfect program to help me test the waters and understand the options available to me.”

Tyler who is young for his year, was propelled two years ahead in his studies in Year 8.

He felt the Fast Forward Program was well suited to him as it isn’t purely based on academic merit, and rewards students who are actively involved in their community. Tyler is an avid tennis player and when he’s not on the court he enjoys giving back by volunteering with the Vinnies door knock appeal, helping out during school open days and tutoring other students after school.

As for others considering applying for the program, Tyler encourages other students to go for it. “If you’re looking for a better, more rounded understanding of higher education and the choices that are available then the UC Fast Forward Program is what you want. In fact, I was surprised how much emphasis was put on the development of life skills beyond the class and how much more confident I became as a result.”

Meet Rachel

Working four part time jobs and preparing for her upcoming internship unit, Rachel is proof that you can manage a busy schedule and a university workload. As a proud member of the UC community, two of her roles see her working for the University. She's also the Public Relations Head of UC's communication and media society, UComms, providing her with opportunities to build networks and engage with industry.

"We meet every week to discuss what events we can host like networking panels and social events to engage the students and we go on industry trips; last year I went to Sydney and we got to visit lots of big agencies which was a highlight for me."

As Rachel prepares to complete her studies later this year, she's excited to be able to undertake a paid internship as part of her Work Integrated Learning unit.

"The next internship I have upcoming is with The Department of the Prime Minister and Cabinet in the Public Service, which will be a very different kind of experience compared to my first internship which was with a private company, 180 Degree Marketing."

It's opportunities like this that have helped pave a path for Rachel once she graduates making for an easy transition into full time work within the industry.

As for advice for future students, Rachel echoes the same sentiment as many of her peers.

"Internships are such a great experience, even if it's something you find out you don't really enjoy doing, there's a positive to that as well, so just get involved in everything."

"Grab every opportunity and keep saying yes to different things."

Rachel Bernabe

Bachelor of Communication in Public Relations and Bachelor of Event and Tourism Management

Meet Claudia

Claudia Jenkins would describe her experience studying at UC so far as “Awesome. Amazing. Indescribable.” You might have seen her face at some of our events or on our posters. She’s a keen Student Ambassador and heavily involved in the student life.

“I have been able to travel and give back to rural communities, participate in national projects, engage with the local community as well as be exposed to the endless opportunities that UC and Canberra can offer me.”

After moving from her hometown of Wagga Wagga, Claudia has settled right into her new lifestyle.

“Canberra is essentially a bigger Wagga with a great community and that is what draws me here. Current and past students always speak so highly of UC and it just felt like a bigger version of home. Since I moved, I’ve been UC’s biggest fan girl.”

With the world at her feet, Claudia is looking forward to taking part in a faculty lead study abroad program where she will have the opportunity to broaden her horizons and build new connections.

“This trip will take me to three different countries in three weeks. I am so excited to see what my next two years of studying will surprise me with.

I am a confident young woman with constant aspirations to go beyond my potential and I owe this to UC.”

“UC is doing more than just educating me, I’m being exposed to all that is out there, locally, nationally and internationally.”

Claudia Jenkins

- ✓ *Scholarship recipient*
- ✓ *Work Integrated Learning*
- ✓ *Works part time*

Meet Tim

When Tim Walshe, embarked on his journey studying a Bachelor of Primary Education (Creative Arts) he knew it was the right choice for him.

“I’ve been born into a teaching family. My aunty taught in the Philippines, my younger sister is a Primary School Teacher and my mum has been a Family Daycare Educator since I was three months old. We all love to work with kids and teach; I guess it’s in our blood.”

Tim’s studies saw him gain practical experience through Work Integrated Learning at local schools, but he also had the opportunity to take part in our exchange program in Hong Kong. After being granted the New Columbo Plan Scholarship in his third year, Tim had the chance to broaden his networks internationally giving him an extra advantage when he graduates.

“I learnt a lot there and managed to work my last semester overseas. Our Course Convener was very flexible in getting that to work out and was very supportive throughout the process.”

“I managed to take on work at a local primary school which then led to LSA work (Learning Support Work) and further connections with other schools. I’ve already secured a job for next year.”

“The connections I made with my conveners led me to opportunities for part time work at schools during my degree.”

Tim Walshe
Bachelor of Primary Education (Creative Arts)

Meet Emma

As a passionate physiotherapy student Emma's future career path wasn't always so clear-cut. After completing Year 12 she knew she wanted to pursue further study at a university level but until visiting a Canberra Careers Expo she wasn't sure what direction she would go.

"I walked up to the UC tent and said I want to study something in Health. The person there went through everything with me and when we got to physio, I said that sounds great. I had no idea I wanted to study physio before then."

Since starting university Emma has applied herself to every presented opportunity, she is the Secretary of the Student Lead Association of Physiotherapy, a proud Student Ambassador, Peer Assisted Learning Support Mentor and the Undergraduate Council Representative for 2020, and that's just the work she does with UC.

Participating in all of the above hasn't stopped Emma from being able to take her studies abroad and use that time to experience America.

"I went overseas for six weeks to do a short exchange at the University of California Irvine. We got to travel a lot and saw some really cool things like Vegas, the Grand Canyon and of

course the Californian coastline. Having the opportunity to do those placements before you graduate means you'll know what you want in the workforce and where you want to be and that's really helpful."

As for moving into the workforce, Emma knows that her degree will help her reach her goals.

"UC is helping me reach my career goals by providing lots of opportunities for growth and development. I just love that it's really hands on, especially with something like physio. I wanted it to be hands on so that when I move into the workforce, I know what I am studying is what I want to do."

"Studying overseas makes you think about who you are and what you want to do."

Emma Montgomery
Bachelor of Physiotherapy

HEALTH

Build a rewarding future in health.

UC is one of Australia's leading universities for health and sport education. We're home to elite athletes and professional sporting teams, state-of-the-art facilities and leading research institutes.

Gain access to cutting-edge learning environments including our on-campus UC Hospital, Canberra Specialist Medical Centre, Community Health Hub, Sporting Commons and research labs.

With practical learning at the heart of all our degrees, you'll gain hands-on experience from day one. Boasting strong industry links and a comprehensive Work Integrated Learning program, we'll ensure you graduate ready to secure a successful career in one of Australia's fastest growing industries.

- ✓ **Courses:** Medical Radiation, Midwifery, Nursing, Nutrition, Occupational Therapy, Pharmacy, Physiotherapy, Psychology, Public Health, Sport and Exercise Science and Vision Science.
- ✓ **Work Integrated Learning:** Central to all of our courses. Get work ready with comprehensive, hands-on learning opportunities, including internships and clinical placements with employers like ACT Health, ACT Brumbies and Headspace.
- ✓ **Global Learning:** Faculty Study Tours, Winter and Summer Short Term Programs and International Internships and Placements.
- ✓ **Duration:** Bachelor degrees can be completed in three to four years.
- ✓ **Placements:** Health placement may start in Year 1, Semester 1. Students need to ensure they have met placement requirements prior to commencing placement.

Learn in cutting-edge training facilities:

UC HOSPITAL

A brand new, purpose-built rehabilitation facility for adults who are experiencing mental illness or recovering from surgery, illness or injury. The largest facility of its kind in the ACT, the UC Hospital has dedicated clinical and practical teaching spaces for students in the Faculty of Health.

STUDENT LED HEALTH CLINICS

Gain essential clinical skills through fully supervised placements in the UC Health Clinic, where you'll provide low-cost health services to the Canberra community and region.

CENTRE FOR RESEARCH AND ACTION IN PUBLIC HEALTH (CERAPH)

CeRAPH focuses on translating research into policy. We promote wellbeing and work to prevent chronic disease by taking a 'whole person, whole community, whole of life' approach.

UC RESEARCH INSTITUTE FOR SPORTS AND EXERCISE (UCRISE)

Students and staff work together to realise our sporting aspirations, increase engagement and develop strategic sports partnerships. Gain practical experience in our cutting-edge research laboratories including a purpose-built environmental chamber.

CANBERRA SPECIALIST MEDICAL CENTRE (CSMC)

This state-of-the-art multi-purpose medical facility features an ultra-modern Integrated Oncology Centre, advanced radiology services and training and research opportunities for staff and students. At CSMC, you'll get hands-on experience delivering student-led allied health services to the community.

COUNSELLING

If you want to have a real impact on the lives of individuals, families and communities, this is the degree for you.

Learn about key issues affecting health promotion and health care, family, youth, ageing, mental health and relationships. Become an allied health professional working across public and private settings.

Career opportunities: Counsellor, youth worker, healthcare professional, social worker

COURSE

Meet Rahul

Moving abroad is a huge step for anyone but for Rahul his decision to move from India to Canberra to study is one he is glad he made.

“My experience at UC has been amazing so far. I have grown as a person and have learned a lot. The love and support from people is incredible.”

As part of his course work Rahul has participated in Work Integrated Learning where he has been able to gain hands on experience in his field of study.

“UC has helped me a lot in reaching my career goals. I have been working with the IoT research team which has helped me in gaining experience in my field of study so that I can hit the ground running when I graduate. I am really thankful to the University of Canberra for providing myself and other students with opportunities to gain experience while studying and would recommend every student take advantage of this.”

To students considering studying at UC, Rahul’s advice is simple, he says getting involved in the lifestyle is the key to a smooth transition.

“I would suggest new students join one of UC’s clubs and societies and to enjoy the welcoming and warm culture. The lifestyle makes me feel at home from daytime music to market days, it’s an environment where I feel relaxed and at ease.”

“There’s lots of smiling faces around campus and so many clubs and groups to join. There’s something for everyone.”

Rahul Saini

Bachelor of Software Engineering

SCIENCE AND TECHNOLOGY

If you're curious, hands-on and results driven, this is the faculty for you.

At UC our science and technology degrees strike the perfect balance between practice and theory. Enjoy world-class academic programs in a dynamic and unique environment where you'll gain practical Work Integrated Learning experience.

With our cross-disciplinary team of leading educators and researchers, you will learn from the best to be your best. Put your learnings into practice with our state-of-the-art facilities such as the Forensics Laboratory, Biomedical Research Facility, Freshwater Ecology Laboratory, and Robotics Laboratory.

We ensure you graduate work ready, world ready and future ready; equipped with a broad skillset and the theoretical knowledge to stand out from the crowd and graduate in high demand.

- ✓ **Courses:** Environmental Science, Biomedical Science, Medical Science, Applied Science in Forensic Studies, Information Technology, Business Informatics, Software Engineering and Data Science, Information Technology and Systems.
- ✓ **Work Integrated Learning:** Gain industry experience through Work Integrated Learning, including internships and work placements with employers like Xero, Pegasystems, PricewaterhouseCoopers, and the Office of the Gene Technology Regulator.
- ✓ **Global Learning:** Exchange, Faculty Study Tours, Winter and Summer Short Term Programs and International Internships and Placements
- ✓ **Duration:** Bachelor degrees can be completed in three years

Hone your skills in leading facilities:

WILDLIFE GENETICS LABORATORY

Dive into DNA sequencing, genotyping, cloning and art cytogenetic work research.

ROBOTICS WORKSHOP

Work on robotics and robotic-human interaction.

MEGA LABORATORY

Digitally enhanced science laboratory supporting microbiology, chemistry, biochemistry, ecology and biophysical sciences.

INNOVATION LABORATORY

Specialist computer lab for Mobile Technology and Games Programming.

FORENSICS LABORATORY

Put on your CSI cap — this state-of-the-art facility, the National Centre for Forensic Studies (NCSF) was designed to mimic the Australian Federal Police lab and is used as a backup lab.

IoT LABORATORY

Use future-focused technology in this Network Engineering Workshop, including Drones, Wi-Fi Networks and Sensor Equipment.

SCIENCE

Study Science at UC and watch your career options multiply.

Our versatile degrees provide you with a fantastic foundation, letting you pursue your passions and tailor your science degree in areas such as Mathematics, Chemistry, Biology, Ecology, IT and more.

Take advantage of exciting Work Integrated Learning opportunities — including unique field trips, and local and overseas placements — and graduate ready to impress with practical, work-ready skills.

Career opportunities: Forensic toxicologist, DNA analyst, biomedical scientist, allied health technician, biotechnologist, medical scientist, environmental manager, water scientist, sustainability officer, ecologist, research scientist, government science policy developer.

COURSE					
Bachelor of Applied Science in Forensic Studies	60	3 years	142JA	368044	✓

Pathways

When it comes to getting accepted into your dream degree, we understand that challenges can stand in the way.

If you haven't qualified for direct entry, don't stress — our on-campus education partner, UC College is dedicated to making your dream to study at university a reality. Located centrally on campus, UC College provides an alternative entry pathway to the University of Canberra for students who may not have qualified for direct entry.

Kickstart your studies with UC College's range of Enabling and Higher Education Diploma Programs suited to both current school leavers and non-school leavers. The best bit? UC College's direct entry arrangement with the University of Canberra means you can jump straight into either the first or second year of a corresponding bachelor's degree after completing your course.*

If you've applied to UC directly but haven't received an offer, you'll automatically receive an offer from UC College. Our highly-qualified staff are here to make sure you graduate from UC College with the skills to take on a bachelor's degree.

Visit www.canberra.edu.au/uc-college to start your journey today.

HOW TO APPLY

1. Browse through our courses and choose the right one for you
2. To streamline your admission process, carefully read and make sure you meet the entry requirements before applying
3. Apply to UC College through UC's online applicant portal www.canberra.edu.au/future-students/apply-now or by emailing pathways@canberra.edu.au

For up-to-date course and fee information please visit www.canberra.edu.au/uc-college

If you would like to make an appointment with a UC College course adviser, contact UC College Student Centre on **1800 864 226** or email pathways@canberra.edu.au

FEES

If you're a domestic student, you may be eligible to access the Commonwealth Support Place (CSP) where the Australian Government subsidises your course fees, reducing the amount you owe.

There is also a Student Services Amenities Fee.

For more information, visit studyassist.gov.au

ENABLING ACCESS PROGRAMS

PROGRAM

UC Connect

An enabling course for current school leavers who wish to study an undergraduate degree at UC and whose current academic qualifications do not allow them direct admission to the University. Entry requirements: Completion of an equivalent Australian Year 12 qualification (education system of 12 years of schooling) with 3 passes in academic subjects*. *For students interested in studying UC Connect or UC Prep please contact pathways@canberra.edu.au or offerings, duration and intakes.*

UC Prep

A bridging course that helps prepare you for study in a UC Degree It is ideal for students whomay have not studied for some time. Entry requirements: It is designed for students who are 21 years or older, have been out of education for more than 2 years, and/or may have experienced hardship in their previous education. *This is for both UC Connect and Prep. For students interested in studying UC Connect or UC Prep please contact pathways@canberra.edu.au or offerings, duration and intakes.*

Aboriginal and Torres Strait Islander Foundation Program

A program to help build the skills needed for study at the University of Canberra
Duration: 1 semester (6 months) | Intake: February, July or part-time equivalent
Entry requirements: Aboriginal and/or Torres Strait Islander potential student who didn't meet the admission requirements for university.

PATHWAY TO UC

Successful completion guarantees entry into the first year of the corresponding UC Undergraduate degree.*

Alternatively, students who need additional academic support will be guaranteed entry into a UC College Diploma program, which upon completion provides direct access into the second year of the corresponding UC Undergraduate degree.*

Successful completion guarantees entry into the first year of the corresponding UC Undergraduate degree.*

Successful completion guarantees entry into the first year of the corresponding UC Undergraduate degree.*

HIGHER EDUCATION DIPLOMAS

DIPLOMA DETAILS

PATHWAY TO UC*

Diploma of Business

Duration: 2 terms (8 months)
Intake: February
Course Code: 933AA
UAC Code: 360015

Entry to 2nd year in:

- Bachelor of Accounting
- Bachelor of Business (Entrepreneurship and Innovation)
- Bachelor of Business (Human Resource Management)
- Bachelor of Business (International Business)
- Bachelor of Business (Management)
- Bachelor of Business (Marketing)

- Bachelor of Business (Service Management)
- Bachelor of Commerce (Accounting)
- Bachelor of Commerce (Business Economics)
- Bachelor of Commerce (Finance and Banking)
- Bachelor of Event and Tourism Management
- Bachelor of Politics and International Relations
- Bachelor of Commerce (Financial Planning)

Diploma of Communication

Duration: 2 terms (8 months)
Intake: February
Course Code: 951AA
UAC Code: 360005

Entry to 2nd year in:

- Bachelor of Arts (Creative Writing)
- Bachelor of Arts (Culture and Heritage)
- Bachelor of Arts (Digital Media)
- Bachelor of Arts (Film Production)
- Bachelor of Arts (Global Studies)
- Bachelor of Communication and Media (Journalism)

- Bachelor of Communication and Media (Corporate and Public Communications)
- Bachelor of Media (Marketing Communication)
- Bachelor of Communication and Media (Sport Media)

Diploma of Design

Duration: 2 terms (8 months)
Intake: February
Course Code: 199JA
UAC Code: 360035

Entry to 2nd year in:

- Bachelor of Building and Construction Management
- Bachelor of Design (Industrial Design)
- Bachelor of Design (Visual Communication Design)
- Bachelor of Design (Interaction Design)

- Bachelor of Built Environment (Architecture)
- Bachelor of Built Environment (Interior Architecture)
- Bachelor of Landscape Design

Diploma of Health

Duration: 2 semesters (12 months)
Intake: February
Course Code: 358JA
UAC Code: 360045

Entry to 2nd year in:

- Bachelor of Health Science (Human Movement)
- Bachelor of Health Science (Nutrition Studies)
- Bachelor of Human Nutrition**

- Bachelor of Public Health
- Bachelor of Science in Psychology

Diploma of Information Technology

Duration: 2 terms (8 months)
Intake: February
Course Code: 935AA
UAC Code: 360010

Entry to 2nd year in:

- Bachelor of Information Technology
- Bachelor of Business Informatics
- Bachelor of Engineering in Network and Software Engineering (Honours)
- Bachelor of Software Engineering

Diploma of Science

Duration: 2 semesters (12 months)
Intake: February
Course Code: 192JA
UAC Code: 360030

4 units (1 semester) of credit towards the following bachelor courses at University of Canberra:

- Bachelor of Science
- Bachelor of Medical Science
- Bachelor of Applied Science in Forensic Studies
- Bachelor of Biomedical Science
- Bachelor of Environmental Science

For entry into all diploma programs requires completion of an equivalent Australian Year 12 qualification with 3 passes in academic subjects.

* A student's pathway depends on the overall results they achieve and course availability. Students must pass all course unit requirements within the program to be guaranteed entry into the University of Canberra.

** Students will receive 18 credit points (6 units) of advanced standing into the Bachelor of Human Nutrition.

*** Enabling programs – Course exemption: Bachelor of Midwifery. For full list of courses, please visit www.canberra.edu.au/uc-college

UC College and University of Canberra reserve the right at all times to withdraw or vary courses listed.

UC College is operated by University of Canberra College Pty Limited ABN 51 080 888 231, a jointly owned college of the University of Canberra (UC) and Navitas Limited delivering programs on behalf of UC. CRICOS #00212K

CAMPUS ACCOMMODATION

Your new home

Uni is as much about the friends you make as the courses you take.

Campus accommodation is the perfect way to meet new people and make mates for life. You'll be amazed at how quickly you'll form friendships and create lasting memories.

Our on campus accommodation provider is UniLodge. UniLodge offer a range of different living arrangements and price options to choose from.

For more details, including accommodation options and prices, visit www.canberra.edu.au/on-campus/accommodation

OFF-CAMPUS

Canberra has plenty of great accommodation off-campus, such as Weeden Lodge. Other options include renting, sharing and homestays. If you're keen to live in off-campus shared or private accommodation, visit:

www.canberra.edu.au/future-students/accommodation/off-campus-accommodation

ACCOMMODATION GUARANTEE

When you start at UC, you don't need to worry about finding a place to live. We offer guaranteed accommodation to all eligible first year domestic students and all international students:

www.canberra.edu.au/future-students/accommodation-guarantee

HOW TO APPLY

YEAR 12 SCHOOL LEAVERS

Congratulations on making it through 13 years of school! Ready to start your uni journey? All you need to do to get started is submit your application online through the Universities Admissions Centre (UAC).

In UAC, you'll have the opportunity to list up to five preferences. Every preference is an opportunity to gain admission into university — the more options you have, the more chances you have of securing a place. Start with your most preferred course in the first position and include others that interest you. You'll receive an offer for the first course in your list that you are eligible for.

uac.edu.au

ADJUSTMENT FACTORS

Adjustment factors are available to a range of eligible undergraduate students and are added to your Australian Tertiary Admission Rank (ATAR) or entry rank to give you an adjusted entry score. UC offers three adjustment factor schemes: Subject Adjustments, University Priority Groups and Educational Access Scheme (EAS).

If you're from a disadvantaged background, or if your education has been negatively affected throughout the year, the Educational Access Scheme (EAS) through the Universities Admissions Centre (UAC) is something you should consider.

SPECIAL CONSIDERATION

If you've experienced circumstances that have impacted or disadvantaged your previous study and you don't meet the criteria to receive adjustment factors, don't worry, special consideration will be given on a case by case option.

DEFER YOUR STUDIES

We understand that life changes and you may need to defer your offer. If you're a domestic student who hasn't yet accepted your offer, or who has accepted but hasn't yet enrolled in any units, you can apply to defer. Please note that not all courses can be deferred.

UC COLLEGE

UC College provides pathway programs for both international and domestic students. If you aren't currently qualified to enter university through traditional entry points, our programs focus on developing the academic skills required to successfully gain direct entry to UC. More information on UC College is available on page 46.

www.canberra.edu.au/uc-college

ALTERNATIVE ENTRY SCHEMES

RETURNING TO STUDY

It's never too late to begin your degree. If you've taken a gap year or two; been working since you left school; started or completed study at another institution — then good news, you can apply directly to UC by completing our online application form.

AUGUST EARLY OFFER ROUND

If you're a current Year 12 student applying to UC for undergraduate study, you could receive an early admission offer under the August Early Offer Round using criteria other than your ATAR. For more information, visit www.canberra.edu.au/future-students/apply-to-uc/early-offer-round

SCHOOLS RECOMMENDATION SCHEME

We also accept early applications through the Schools Recommendation Scheme (SRS) by using criteria other than the ATAR. This is based on your school's assessment and you should get in touch with them directly for more information.

PORTFOLIO ENTRY

The Faculty of Arts and Design at UC offers alternate entry via portfolio submission for applicants who may not meet the required entry rank.

For more information, please visit www.canberra.edu.au/future-students/apply-now/alternative-entry/portfolio-entry

FAST FORWARD PROGRAM

UC's Fast Forward Program is an exclusive early-entry club for stand-out high school and college students. It's perfect for those who go the extra mile both inside and outside of school, who are actively involved in their studies and their community either through sporting clubs, volunteering or similar activities. Students in Year 11 can be considered to join the Fast Forward Program each year and enjoy an early unconditional offer to UC whilst they are in Year 12. Application opening dates and more information is available online.

www.canberra.edu.au/fastforward

For the most up to date information on all of UC's entry schemes, please visit www.canberra.edu.au/future-students/get-into-uc

SCHOLARSHIPS

Receiving financial assistance can help you get the most out of your university experience.

UC scholarships can assist you with a range of expenses including living costs, textbooks, accommodation, relocation or contribution towards your fees.

We'd recommend browsing the scholarships on our website to start. After browsing what's available, click the 'Apply Now' button. Applying is easy. Simply submit one application, and you'll be considered for every scholarship for which you're eligible.

You'll need to have applied and accepted your offer in order to apply for a scholarship.

If we identify you as being eligible for one or more unique scholarships, you may be contacted for additional information. All applicants will be notified of the outcome of their application approximately two weeks after the closing date.

EXTERNAL SCHOLARSHIPS

External scholarships are awarded by external companies, government departments or organisations. UC doesn't endorse or support any products or companies affiliated with these scholarships. They're advertised with the purpose of providing students with more options for financial support.

INDIGENOUS SCHOLARSHIPS

There are a range of scholarships available for Aboriginal and Torres Strait Islander students to help with some university costs. You can find the full list of scholarships here.

www.canberra.edu.au/scholarships

STUDENT SUPPORT

HEALTH AND WELFARE

STUDENT WELFARE

If you need help but aren't sure where to go, the Welfare Office can refer you to services at UC or around Canberra.

We can also provide support with a variety of issues, from financial difficulties, study challenges, finding accommodation, misconduct or grievance resolution, and anything else you may be worried about.

INCLUSION AND ENGAGEMENT

The UC Inclusion and Engagement team provides support for students with disability and/or health conditions through the provision of appropriate and reasonable adjustments. We also provide support to the University's Academic Clubs and our friendly staff are always available to offer advice and support during your time here.

FACULTY OF HEALTH CLINICS

The Faculty of Health Clinics provide health services to students, staff and the wider community. Services include physiotherapy, exercise physiology, dietetics, clinical psychology, counselling, occupational therapy, remedial massage and a sleep clinic. Concession prices are available for current UC students.

MEDICAL AND COUNSELLING CENTRE

The UC Medical and Counselling Centre is a confidential service dedicated to your needs. We provide general practitioner and nursing services to all UC students and their families, including medical consultations, vaccinations for study placements, travel vaccinations, sports medicine, emergency attendances on campus, and more.

The Counselling team, comprising registered psychologists and a social worker, is committed to helping you build emotional resilience, pursue wellness and achieve academic success.

Most of these services are either bulk billed (domestic students) or direct billed to Overseas Student Health Cover (international students).

STUDENT ADVOCACY

A free advocacy service is run by current students to enhance and assist the educational, cultural, social and financial interests of students within the University and the wider community. Student leaders represent and advocate for the diversity of the campus, which includes the supporting of international, women's, environmental, Aboriginal and Torres Strait Islander, ethnocultural and LGBTQI issues.

CAREERS AND WORK EXPERIENCE

CAREERS UC

Our careers service at UC helps support you in finding employment. We offer advice and opportunities for student employment both on and off campus, and assist with internships, placements and student projects. Gain the skills to become career ready through our many workshops, events, online resources and individual appointments.

CLUBS AND SOCIETIES

There are around 60 clubs and societies you can join to meet like-minded individuals, build communities and friendships, pursue vocational interests, and get involved in industry projects. Alternatively, you can always start your own.

Visit ucunion.com.au/clubs-societies to find out more.

STUDY HELP

STUDY SKILLS

The UC Study Skills team helps you find solutions to any study related problems you may be having, which could include writing and grammar, researching and referencing, the structuring of assignments, maths and stats, and more.

Study Skills offers orientation programs, both face-to-face and online which can be done at any time through the Study Help UCLearn site. This program has multiple pathways to help you develop your writing, referencing and maths skills. Study Skills also runs face-to-face sessions designed to help you learn how to plan your studies, study effectively, and use the UC online systems.

ALWAYS HERE

For 24/7 study help, the Study Help UCLearn site contains online interactive learning resources to help with finding information, referencing, assignment writing, maths and stats, time management, exam preparation, and more.

PEER-ASSISTED LEARNING SESSIONS

Peer-Assisted Learning Sessions (PALS) offer extra learning and study support for traditionally difficult units. PALS leaders are past students who have successfully overcome the challenges in these units and have since received additional training to assist them in passing on their knowledge.

INTENSIVE ENGLISH

The Study Skills Intensive English Course runs four times a year: just before the start of both Semester 1 and Semester 2, and in Week 8 of both semesters. This course is free for UC students, and is designed to help you improve your English writing, reading, speaking and listening skills.

MATHS AND STATS HELP

Drop-in Maths and Stats Help (MASH) sessions are held Monday to Friday in the MASH Centre. These are open to all students, with friendly tutors available to assist with a range of mathematics and statistics queries. There are also a range of online maths and stats learning modules available on the Study Help UCLearn site.

FACILITIES

STUDENT CENTRAL

Student Central is the hub for many student services, including student administration, careers information, health and counselling assistance, support for students with a disability, student welfare and equity, International Student Support Services, and much more.

LIBRARY

The UC Library offers extensive information resources and reference works, including online materials, to support your study and research. You can use library facilities for individual and group study, and the Library Commons is available 24-hours a day. Our library staff provide individual and group assistance, both in the library and online.

www.canberra.edu.au/library

NGUNNAWAL CENTRE

For over 30 years, the UC Ngunnawal Centre has contributed to positive change for Aboriginal and Torres Strait Islander students. Visit the Ngunnawal Centre to access education, support and enrichment programs including workshops and events, one-on-one support and online study resources.

For enquiries, please email ngunnawal@canberra.edu.au

MULTI-FAITH CENTRE

The Multi-Faith Centre offers pastoral care services, providing support for worship, practice and education in religious traditions.

CHILDCARE

If you've got little ones in tow, childcare is easy at UC. We have two childcare facilities on campus: the Kirinari Early Childhood Centre and the Wiradjuri Preschool and Child Care Centre. Both complexes offer childcare support for the community, students and staff of the University.

www.canberra.edu.au/on-campus/childcare

CAMPUS SERVICES

On campus, you'll find everything you need, including a bank, post office, Co-op bookshop, hair salon, convenience store, supermarket and cafes and restaurants offering delicious food. The Refectory food court is a great option for takeaway food and snacks. If you're after something a bit more raucous, head to our campus bar, The Well, housed in the residential precinct providing drinks, karaoke and trivia nights for students.

Visit ucunion.com.au/eatdrinkshop to find out more.

Head to our website for further details about our comprehensive support services.

FEES

DOMESTIC STUDENTS

University fees for domestic students fall under one of two categories: Fee-Paying Places or Commonwealth Supported Places (CSP). How much you end up paying for your course depends on the type of fees associated with your degree.

All domestic undergraduate students are eligible for a CSP, and some domestic postgraduate students may also be eligible for a CSP depending on their course.

COMMONWEALTH PLACES (CSP)

If you're enrolled in a CSP, Australian Government funding subsidises most of your university fees and you only need to pay the remaining amount. This is called the Student Contribution Amount (SCA). You can choose to pay your Student Contribution Amount upfront, or you can access a HECS-HELP loan to assist with your fees. Please see Financial Support for further information.

STUDENT CONTRIBUTION AMOUNT (SCA)

Each year, the Australian Government releases the Student Contribution Range which identifies how much a university can charge students. At most universities in Australia, including the University of Canberra, students are charged the maximum amount. Please refer to the 2021 student contribution bands and ranges table below.

CALCULATING CSP FEES

The various subjects you undertake as part of your degree fall under four separate bands known as Student Contribution Bands. You can calculate an approximate cost for your degree by selecting the Student Contribution Band relevant to your course and multiplying the full Student Contribution Amount by the number of years your degree takes to complete.

Student Contribution Amounts change each year, so the fees in the year you commence your studies may be different to those in subsequent years. You might also choose to undertake some units during your degree, as part of a major, for example, that fall under another band, and this will impact the overall cost of your degree.

2021 STUDENT CONTRIBUTION BANDS AND RANGES

	CONTRIBUTION BAND	MAXIMUM STUDENT CONTRIBUTION AMOUNT*
BAND 1	Agriculture, English, mathematics, education, clinical psychology, Indigenous and foreign languages, nursing, statistics	\$3,950
BAND 2	Other health, allied health, built environment, computing, engineering, surveying, science, environmental studies, pathology, visual and performing arts, professional pathway psychology, professional pathway social work	\$7,950
BAND 3	Dentistry, medicine, veterinary science	\$11,300
BAND 4	Law, accounting, administration, economics, commerce, communications, society and culture	\$14,500

*Equivalent full-time student load (EFTSL)

FINANCIAL SUPPORT

All university fees can be paid upfront, or you can choose to use the Higher Education Loan Program (HELP) to defer paying your fees until a later date. The Australian Government Higher Education Loan Program consists of three loan schemes known as HECS-HELP, FEE-HELP, and SA-HELP.

1. HECS-HELP

Higher Education Contribution Scheme (HECS) is the type of loan you take out as a university student to pay your Student Contribution Amount. All students enrolled in a Commonwealth-Supported Place (CSP) are eligible for a HECS-HELP loan.

2. FEE-HELP

FEE-HELP is a similar loan scheme to HECS-HELP but for students enrolled in a Fee-Paying Place. FEE-HELP differs from HECS-HELP in that it has a maximum limit that can be borrowed (known as the FEE-HELP limit) and is usually for university students studying postgraduate courses. For 2021, the FEE-HELP limit is \$108,232 for most students.

3. SA-HELP

SA-HELP is a loan scheme available to Australian Citizens that have been charged the Student Services and Amenities Fee (SSAF). SSAF is a fee for student services and amenities of a non-academic nature, such as sporting and recreational activities, employment and career advice, child care, financial advice and food services. In 2021, the maximum fee for a full-time student will be \$313.00 and \$234.00 for a part-time student.

APPLYING FOR A HELP LOAN

When you enrol at university, you'll be asked to complete an online form and select your preferred billing option. You can choose to pay your fees upfront, make a partial payment and defer the remaining fee, or defer the whole payment via your HELP loan.

FURTHER INFORMATION

studyassist.gov.au

GLOSSARY

TERM	DESCRIPTION
Accreditation	A certification of competence in a specified subject or area of expertise awarded by a third party.
Articulation	A formal agreement between two educational institutions to award credit towards a course based on previous completion of an award program.
Australian Tertiary Admissions Rank (ATAR)	A rank calculated so that universities and other tertiary education providers can compare students who have completed different types of Year 12 study. The ATAR is used as a basis for admission into university. Other criteria may also be used in conjunction with an ATAR.
Course	A program of study, usually taking three or four years to complete. When a student completes their course, they're awarded a degree.
Credit	The recognition of prior learning and skills, which can excuse a student from undertaking certain units within a degree.
Deferring	A term used when a student receives an offer from a university but chooses to delay their start date by six months to one year.
Degree	A qualification a student earns after completing their course of study.
Discipline	A group of degrees at an institution that share common themes, units and resources.
Double Degree	Students can study two undergraduate degrees at the same time and complete both degrees in a condensed time frame.
Faculty	A collective group of associated disciplines, run by a Dean who oversees teaching and research.
HECS (or HECS-HELP)	HECS-HELP is a financial loan available to eligible students enrolled in a Commonwealth Supported Place at a higher education institution. Find out more at studyassist.gov.au
Honours	A one-year course for high-achieving students, typically undertaken at the end of a standard three year bachelor's degree.
Lecture	A class which presents the critical information from a unit to students.
Major	A sequence of related units that form a student's main field of specialisation within a degree. Students are required to undertake a certain number of units within this specific field to qualify with a major.
Mature Age Students	Students who are entering tertiary study and are aged 21 or over.
Minor	A sequence of related units that form a student's secondary field of specialisation within a degree. Minors also require a certain number of units to be studied.
Non-School Leaver	Students who are entering tertiary study without having graduated from Year 12 the previous year.
Packaged Offer	When a student doesn't meet the admission requirements of a degree, they may be required to complete another program of study prior to commencing study, such as a bridging course or English language program.
Pathway	Alternative entry methods into university that aren't based on a raw ATAR score, including schools' recommendation schemes, adjustment factors and bridging courses.
Postgraduate (PG)	Study undertaken after a student has already completed at least one undergraduate bachelor's degree or equivalent.
Prerequisite	Prescribed conditions students must satisfy to gain entry into a course.
Scholarship	Financial grants given to eligible students to help cover costs associated with university, based on merit, need, career or equity grounds.
School Leaver	Students who plan on studying either straight after completing Year 12 or in the following year.
Selection Rank	An adjusted score for entry into university consisting of a student's ATAR plus any adjustment factors that they are eligible for and have been awarded. Selection ranks advertised in this guide reflect the course cut-offs provided to the Universities Admissions Centre (UAC) for assessing applications to UC for the 2019 admissions round.
Tutorial	A class intended to assist students in the understanding and practical application of information provided in the lecture
Undergraduate	A student who has not yet completed any tertiary study. Most bachelor's degrees are referred to as undergraduate degrees.
Unit	A subject of study at university. A degree is made up of units that a student must pass.
Universities Admission Centre (UAC)	UAC processes applications for admission to most undergraduate and some postgraduate courses at participating institutions (mainly located in NSW and the ACT). uac.edu.au
Work Integrated Learning	The combination of workplace experience with academic learning, assessment and support.

OPEN DAY 2021

Saturday 21 August | 9am–4pm
